## Revision Fiber Launch

Periodic revisions of your fiber optic connectors ensure correct and reliable measurement results

# REVISION FIBER LAUNCH

## The Mandatory Programme For Your Connectors

The requirement for correct OTDR measurements are flawless optic connectors that hardly attenuate the light through the bias. A periodic revision guarantees an optimum light output in the fibre optic link to be measured. As a certified service centre we carry out **cleaning and replacement of optical connectors** according to the manufacturer's specifications and prepare the corresponding **verification documents**.

We guarantee quick delivery, 100% reliability, and best customer service.
